§ 404.410 How does SSA reduce my benefits when my entitlement begins before full retirement age?

Generally your old-age, wife's, husband's, widow's, or widower's benefits are reduced if entitlement begins before the month you attain full retirement age (as defined in §404.409). However, your benefits as a wife or husband are not reduced for any month in which you have in your care a child of the worker on whose earnings record you are entitled. The child must be entitled to child's benefits. Your benefits as a widow or widower are not reduced below the benefit amount you would receive as a mother or father for any month in which you have in your care a child of the worker on whose record you are entitled. The child must be entitled to child's benefits. Subject to §§ 404.411 through 404.413, reductions in benefits are made in the amounts de-

(a) How does SSA reduce my old-age benefits? The reduction in your primary insurance amount is based on the number of months of entitlement prior to the month you attain full retirement age. The reduction is % of 1 percent for each of the first 36 months and 5/12 of 1 percent for each month in excess of 36.

Example: Alex's full retirement age for unreduced benefits is 65 years and 8 months. She elects to begin receiving benefits at age 62. Her primary insurance amount of \$980.50 must be reduced because of her entitlement to benefits 44 months prior to full retirement age. The reduction is 36 months at % of 1 percent and 8 months at ½ of 1 percent.

 $980.50 \times 36 \times \frac{5}{9} \times .01 = \196.10 $980.50 \times 8 \times \frac{5}{12} \times .01 = \32.68
